

Date: 05-SEPT-22

We would definitely recommend **MURPHY EXPO**, their help has contributed to our success at the 14th International Exhibition and Conference on Minerals, Metals, Metallurgy & Materials 29 - 31 August, 2024, Pragati Maidan, New Delhi, India. We will continue to work with them again and I'm sure that our new exhibitions stand project will be a big success. From our sketchy brief, **MURPHY EXPO** took control and designed a classy and contemporary exhibition stand and liaised with our Marketing and Management team to ensure that the whole process went very smoothly.

We are satisfied with the quality and delivery of our stand at these events but it is also comforting to know that everything is well thought out and taken care of in a most calm and understanding manner. We will be glad to cooperate with **MURPHY EXPO** again at Exhibitions/Events. Wish your whole production team good luck, success and a lot of exciting projects!
